## **Hydro International Technical Papers to Present Stormwater Solutions at Floodplain Conferences in Indiana and Wisconsin**

PORTLAND, Maine — Hydro International, a leading provider of environmentally sustainable products and innovative solutions that control and treat stormwater, wastewater and combined sewer overflows, will present technical papers at a pair of upcoming conferences hosted by environmental groups in Indiana and Wisconsin.

A Hydro representative will deliver a paper drafted by Hydro U.S. Research and Development Manager Kwabena Osei at the annual conference of the Indiana Association for Floodplain and Stormwater Management held on Sept. 12-14. The conference will take place at the Potawatomi Inn at Pokagon State Park in Angola, Ind.

Osei's paper for the Indiana conference will focus on "Storage, Control, Treatment and Reuse of Stormwater in Urban Development."

Osei also is drafting a paper to be presented at the annual conference of the Wisconsin Association for Floodplain, Stormwater, and Coastal Management on Nov. 7-9. The session will take place at the Radisson Paper Valley Hotel in Appleton, Wis. The paper will address issues corresponding to the conference's theme: "In Our Backyard – Sustainable Flood, Stormwater and Coastal Management Solutions in Wisconsin."
